

THE HOME OF INNOVATION

INNOVATING TODAY FOR A SUSTAINABLE FUTURE

Global urbanization and population growth increasingly contribute to climate change and deplete the world's natural resources. It is therefore vital that cities play a leading role in realizing a more sustainable future for all, by redefining how we live together.

To ensure cities can tackle the challenges of climate change and sustainable development, we need a place where sustainability, innovation and community moves hand in hand. A place to reimagine tomorrow through the R&D of cutting-edge innovations and technology, to deliver the sustainability solutions of the future.

Over the past decade, Masdar City, has been doing just that. As one of the world's most sustainable urban developments and the only planned and approved R&D cluster in Abu Dhabi, Masdar City is pioneering research and development in sustainability. The City is home to more than 1,000 companies, many of which are dedicated to developing innovative technologies across the sectors of renewables, energy storage, artificial intelligence, health, space, and mobility.

Masdar City provides a dynamic ecosystem of education, R&D, innovation and technology, and a unique strategic base through which companies can test new technologies and build their partnerships locally and globally, all while spearheading the innovations to realize greener, more sustainable urban living.

Welcome to Masdar City, a pioneering sustainable urban community and innovation hub in Abu Dhabi, UAE.

A 'GREENPRINT' FOR TOMORROW'S SUSTAINABLE CITIES

Design & Green Building

Masdar City, Abu Dhabi, is a world-class hub for technology, innovation, and research and development, facilitating the advancement of real-world solutions in clean energy, water efficiency, agri-tech, health, mobility, and artificial intelligence.. The City combines ancient Arabic architectural techniques with modern technology to create one of the world's largest clusters of high-performance buildings. The cluster operates as a real-time laboratory that monitors, studies and improves upon ways cities use, conserve and share resources.

Each building in Masdar City is constructed with low-carbon cement, utilizes aluminum that is 90 percent drawn from recycled sources, and is designed to reduce energy and water consumption by at least 40 percent than that of the average building in Abu Dhabi. These specifications are set in accordance with LEED and Estidama Pearl Building Rating System baselines. Estidama – named after the Arabic word for sustainability – is administered by the Department of Municipalities and Transport (DMT).

Masdar City's contemporary architecture and narrow shaded walkways naturally bring people closer together and create a unique ambience, while a series of integrated, pedestrian-friendly districts and open public spaces help to promote a healthier way of living.

Mobility

Getting into and around Masdar City is simple, due to a variety of low-carbon public transportation options, including the Personal Rapid Transit (PRT), the autonomous NAVYA shuttle, electric shuttle cars, it's electric public buses. The City's future transportation options will include a Metro line, Light Rail Transit (LRT) and Group Rapid Transit (GRT).

The next phase of the City's evolution will see the development of homes, schools, mosques and parks, along with additional cafés, restaurants, as well as service and retail outlets. Various urban components are master-planned to connect with pedestrian pathways as well as its rapidly developing public transport system.

AN EXCEPTIONAL LOCATION

- Masdar City is located at the crossroads of the Middle East and Asian markets and connects seamlessly to a strong logistics and transport network.
- Located within a major growth area of Abu Dhabi, Masdar City is a prime destination for international business - it is located 5 minutes' drive from Abu Dhabi International Airport, 20 minutes from downtown Abu Dhabi and just 40 minutes from Dubai.
- Masdar City offers direct access to all areas of Abu Dhabi, the UAE and beyond. This accessibility will be further improved with the introduction of future public transport and metro networks.

HOME TO LEADING BUSINESSES & ORGANIZATIONS FROM ACROSS THE WORLD

Being part of Masdar City's Free Zone offers tenants access to a unique business community that inspires innovation and future thinking through regular networking events, introductions, and referrals to other free zone companies. The City is home to start-ups, SMEs and multinationals from a wide range of industries with a dynamic mix of private and government companies. The City's innovation ecosystem connects knowledge with research and business with investment opportunities.

At the heart of this ecosystem is the Mohamed bin Zayed University of Artificial Intelligence (MBZUAI), which began its programmes in January 2021. MBZUAI is a research-driven graduate university and the first in the world dedicated to the study of artificial intelligence.

Some of our anchor tenants include:

UAE Space Agency

TAILORED OPPORTUNITIES FOR INVESTORS & BUSINESSES

Whether you are a developer, an investor or a business looking for office space, Masdar City offers a broad range of opportunities geared to the unique needs of every entity:

Land

Developers can choose between buying or leasing land (Musataha) to develop their own projects that enhance the City's theme of mixed-use community living, with sustainability at its core. The investment options include, but are not limited to, apartments, villas, townhouses, office buildings, schools, universities, retail outlets, light industrial facilities, research and development facilities, and hotels.

Build to Suit

Large organizations can partner with Masdar City to engineer bespoke commercial, retail, residential, recreational, educational, healthcare, and corporate spaces. The dedicated team at Masdar City can design and deliver a complete project within specific business, technical, and financial parameters.

Office Space

For businesses, including start-ups and small and medium enterprises, Masdar City has office spaces that cater to the unique specifications of each entity. We offer shell and core or offices that are fully furnished and equipped, saving businesses time and money and allowing them to prioritize their core business activities.

Retail Space

Retailers have the opportunity to lease space for food and beverage and service outlets throughout Masdar City.

ABU DHABI, THE GATEWAY TO EMERGING OPPORTUNITIES

Abu Dhabi is an exciting, vibrant, multicultural city and a truly international capital. Located at the crossroads of Asia, Africa and the Middle East, Abu Dhabi is the capital of the United Arab Emirates, a country with a heritage of tolerance and openness, and a well-deserved reputation for welcoming citizens from more than 200 countries.

The emirate has also established a growing reputation as a source of global thought-leadership and innovation due to a series of forward-thinking projects and initiatives across a range of diverse sectors including energy, infrastructure, sport, culture and tourism.

Abu Dhabi is already recognized as a global pioneer in renewable energy. This is in part due to the vision and achievements of Masdar, that is committed to advancing the development, commercialization and deployment of renewable energy and clean technologies.

Today, Abu Dhabi is one of the world's most exciting and rewarding business environments: the emirate's journey towards economic diversification is creating a range of unique opportunities for individuals and businesses who want to contribute to its continuing growth and progress.
